## Norah's Ark

Victoria Williamson

### In short

Norah's Ark is an uplifting tale of empathy, friendship, and finding a sense of belonging in the face of adversity.

### Synopsis

Norah Day lives in temporary accommodation, relies on food banks for dinner, and doesn't have a mum. But she's happy enough with her dad and a mini zoo of rescued wildlife to care for. Adam Sinclair lives with his parents in a nice house with a private tutor and everything he could ever want. But his life isn't perfect—far from it. He's stuck at home recovering from cancer with an overprotective mum and no friends.

When a nest of baby birds brings them together as an animal rescue team, Adam and Norah discover they're not so different after all. Can they solve the mystery of Norah's missing mother together? And can their teamwork save their zoo of rescued animals from the rising flood?

### Discussion points for *Norah's Ark*

1. What did you enjoy about this book?
2. What three words would you use to describe the book?
3. Who was your favourite character and why did you like them?
4. What do you think happens after *Norah's Ark* ends?
